# Our Global Impact

Throughout 2025, we continued to expand access to high-quality eye care across underserved communities, restoring sight, independence, and hope to those most in need.

Since 1989, Al Basar has served 38.5 million+ patients across 52 countries and 696 cities, performed 3 million+ sight-restoring surgeries, and distributed 2.3 million+ eyeglasses.

These milestones reflect the enduring impact of our donors, partners, volunteers, and field teams working together to prevent blindness and transform lives worldwide.

Countries served

# Mobile Eye Treatment & Surgery Clinics

Our **Mobile Clinics** provide life-changing eye care services to underserved communities worldwide.

Through free cataract surgeries, eye screenings, eyeglasses distribution and essential medications. We work to restore sight and improve quality of life.

## PATIENT STORY

### A Clearer Future for Rifa

At just 12 years old, Rifa was struggling to see the world clearly. Her vision was affecting her daily life and education. Through our **Mobile Clinics** in Cox's Bazar, Bangladesh, she received the surgery she needed, restoring her sight and giving her a brighter future.

# Mobile Eye Treatment & Surgery Clinics

Distribution of services delivered through **mobile clinics** and field outreach in 2025.

## MOBILE EYE TREATMENT & SURGERY CLINICS IN BRIEF:

- Free cataract surgeries delivered in the field
- Free eye screenings for underserved communities
- Free eyeglasses distributed to those in need
- Free essential medications provided on-site

# Eye Care Hospitals

Millions continue to face challenges in accessing eye care due to limited availability, high costs, and social inequality. Gender disparities and poverty remain a barrier, disproportionately affecting women, leaving many without essential treatment.

Our 29 eye care hospitals are strategically located in areas of greatest need, ensuring quality eye care remains accessible and affordable for underserved communities.

**29**

Eye Hospitals

**1.75M**

Outpatients

**165K**

Eye Surgeries

# Special Programs

The special programs treat serious eye conditions that can not be treated during mobile clinics. These cases include glaucoma, retinopathy, cataracts, strabismus, and low vision.

In 2025, these programs delivered life-changing treatments, distributed glasses, provided essential eye medications.

TOTAL SPECIALIZED

600

procedures delivered in 2025 across five specialized treatment categories.

# 2025 Impact & Accountability

At Al Basar USA, transparency and accountability are foundational to how we operate. Our IRS Form 990 filings and other financial reports are published in full on our website, and we are proud to hold the Candid Platinum Seal for transparency and ethics. With your support, our 2025 results reached more than 775,000 patients across 35 countries and included nearly 200,000 eyeglasses distributed and 478,000+ students screened.

Countries Served

# Partnerships

In 2025, our partnerships remained instrumental in expanding our reach and impact. By collaborating with local organisations, global NGOs, and healthcare providers.

We strengthened our ability to deliver eye care services, share knowledge, and resources. This brings us one step closer to a world free from preventable blindness.
